
There are many ways to Get Involved! Don't see what you want to do? Tell us!

Community Groups

- Become a co-organizer of an existing community group and collaborate with fellow co-organizers to organize recurring events.
- Become a guest speaker for a future community group event to share your thoughts and ideas about a topic that you are passionate about.
- Interested in a topic not addressed by an existing Community Group? Start a new Community Group! We can help you get started, connect with like-minded community members, and support your efforts.

Mentorship

- Become a mentee or mentor in the traditional mentorship model with fellow (volunteer) community members.
- Become a Peer Mentorship Partner with a fellow community member in a similar career phase to help mutually establish and accomplish personal and/or professional goals.

Internship

- Provide an internship opportunity (paid or unpaid) for a student. We partner with education institutions and can help find the right fit for your opportunity.
- Provide professional guidance to a student participating in an internship.

Workshops

- Provide an instructor-led workshop on any topic that is of interest to the community.

Group Projects

- Participate in an existing group project in a topic that you are interested in or have expertise.
- Share your interests to create a new group project in a topic that you are interested in.

Community Projects

- Participate in an existing community project in an area of need or propose a related contribution.

- Recommend a new community project to raise awareness of a community need.

Volunteers

- Help collect and document the needs of the community and partners.
- Help integrate known community needs into our Volunteer Program.
- Respond to a community need by participating as a Volunteer in a Cascade STEAM program or a partner program.

Digital Navigators

- Help members of the public with technology needs as a Digital Navigator Volunteer.

Advisory Committee

- Collaborate with fellow members of volunteer leadership in areas of your expertise in support of Cascade STEAM efforts.

Engagement Committee

- Help create marketing materials to promote Cascade STEAM programs.
- Help create the monthly Community Update, a newsletter-like communication promoting scheduled events and active programs.
- Help with social media promotion on LinkedIn and/or Facebook or suggest other platforms to engage.
- Help with outreach to education, employer, nonprofit, local government, and workforce partners.

Finance Committee

- Help establish funding for Cascade STEAM through development of grants, contracts, and donations.

Programs Committee

- Help manage our seasonal Social events (April, August, and December).
- Help establish a large "Cascade STEAM Summit" annual event integrating and highlighting community efforts.
